About the Programme:

Oxford Dictionary defined blended Learning as a style of education in which students learn via electronic and online media as well as traditional face-to-face teaching. Blended learning has many names – hybrid learning, flipped classroom, mixed-mode courses, integrative learning. The main motto behind that is to optimize online and offline mode of teaching so that it will complement each other and deliver the best learning experience. Blended learning, Remote learning, flip classroom is the need of the hour and also the future of education.Integration of online with traditional face-to-face class activities in a planned, pedagogically valuable manner is a real challenge. Adoption of teaching and learning in a digital mode requires transformation. This fdp is a humble attempt to familiarize participants with tools and techniques to facilitate this change.

Key Areas of FDP:

- Integrating Blended Learning in Higher Education
- Effective Classroom management in a Flip/blended classroom system
- Creating Google Classroom ,Forms ,Quizes & Assignments
- Changing the Face of ELT in Higher Education
- Effective Students Engagement in Teaching
- Effective Learning Management System
- Data Journalism
- Detection of Fake Data
