Two Best practices of the institute are

1. The institute believes in the holistic development of students hence continuous efforts are made to inculcate the virtue of righteousness, ethics, and moral values among students through various workshops and activities under CSR Club. Dedicated efforts are made to improve the learning aptitude of students and enhance their creativity. The institute has implemented the concept of Ekit. all faculty are required to prepare the eKit of their respective subject which includes video cases, examples, case studies, quizzes and a mind map of the subject. THe institute has recently set up its Incubation center under which various start up are mentored to create businesses which bring impact to the society so that they start thinking of people and planet instead of just profit..teamwork at the student and the faculty level is one of the biggest strength of the college. it is possible all the time because every activity planned or decision taken regarding growth and development of student first undergoes a pilot testing phase then finally institutionalized and SOPs are preparedto make it aregular practice. All efforts are made to ensure that students are given practical/ Case study based assignments and question papers . Alumni interactions and engagement of alumni in student mentoring is aregular feature at MERI

2.Use Of ICT across all the departments right from academics for teaching & learning faculty use interactive boards to enhance the students engagement in classrooms , Library books requisition, return etc all is done through library management system. special AI & Ml lab has been set up with latest softwares. All events are conducted in hybrid mode with the help of the Latest ICT tools. all data mangement system is done through centralised information system. The institute has implemented the ERP by my classboard.com
