

A strict academic schedule is adopted at MERI. The academic Calendar is prepared at the outset of every academic year and it is based on the one shared from the university. All academic related activities such as Seminars, conferences, workshops, guest lectures etc. are planned on semester wise basis. Apart from these academic activities, institute also conducts extracurricular activities such as club activities. At MERI various clubs such as e-cell, CSR club, Theatre club, music and dance club, fashion club, literary club etc. are there wherein students join as per their interests and inclinations. Every Saturday, club activities are organized that help the student break away from class room teaching routine and help them to develop psychomotor skills.
