Best Teacher Award Schemes

The Management of MERI has decided to Institute the above schemes with an objective of recognizing the efforts of its faculty. The detailed rules for the above award are as follows:-

1. The Institute has been carrying out a regular feedback system. All students of Management & IT give their feedback twice a semester. The Feedback form has been carefully design as a part of ISO 9001: 2015 certification requirement. The calculation for deciding the “Best Teacher Award” will be based upon the total score of each teacher in all the feedback during a year.
2. In addition to above research work done, contribution of the faculty in overall development of the student through mentoring, assistance in the placements will also be considered for the above purpose.
3. Based on the above criteria, HOD’s of Management, IT, BA(JMC) will nominate two faculties each from their respective deptt. by 30th May every year for consideration of **best teacher award**.
4. Based on the above recommendation and considering the annual performance appraisal, one award will be announced every year in the month of June.
5. The award will carry a cash reward of Rs. 5000/-

SCHEME OF STUDY LEAVE

- (i) Study leave may be granted to a permanent whole-time teacher after a minimum of 3 years of continuous service, to pursue a special course of study or research directly related to his work in the Institute or to make a special study of the various aspects of Institute organisation and methods of education. The paid period of study leave may be for 3 years, but 2 years may be given in the first instance, extendable by one more year, if there is adequate progress as reported by the research guide:

Provided that the Governing Body, may, in the special circumstances of a case, waive the condition of three years service being continuous.

EXPLANATION: In computing the length of service, the duration for which a person was on probation or engaged as a research assistant may be reckoned provided –

- (a) the person is a teacher on the date of the application; and
 - (b) there is no break in service.
- (ii) Study leave shall be granted by the Governing Body on the recommendations of the Director. Study leave shall not be granted for more than three years in one spell, save in very exceptional cases where the Governing Body is satisfied that such extension is unavoidable on academic grounds and necessary in the interest of the Institute.
- (iii) Study leave shall not be granted to a teacher who is due to retire within five years of the date on which he/she is expected to return to duty after the expiry of study leave.
- (iv) Study leave may be granted not more than twice during one's career. However, the maximum period of study leave admissible during the entire service shall not exceed five years.

- (v) No teacher who has been granted study leave shall be permitted to alter substantially the course of study or the programme of research originally agreed to by the Governing Body without the permission of the Governing Body. When the course of study falls short of study leave sanctioned, the teacher shall resume duty on the conclusion of the course of study unless the previous approval of the Governing Body to treat the period of short fall as extraordinary leave has been obtained.
- (vi) Grant of study leave shall be subject to the provisions of sub-clauses (vii) and (viii) below.
- (vii) The amount of scholarship, fellowship or other financial assistance that a teacher who is granted study leave has been awarded, will not preclude his/her being granted study leave with pay and allowances but the scholarship etc; so received shall be taken into account in determining the pay and allowances on which the study leave may be granted. The foreign scholarship or the fellowship would be offset against pay only if the fellowship is above a specified amount, which is to be determined from time to time, based on the cost of living of a family in the country in which the study is to be undertaken. In the case of an Indian fellowship, which exceeds the salary of the teacher, the salary would be forfeited.
- (viii) Subject to the maximum period of absence from duty on leave not exceeding three years, study leave may be combined with earned leave, half pay leave, extraordinary leave or vacation, provided that the earned leave at the credit of the teacher shall be availed of at the discretion of the teacher. When study leave is taken in continuation of vacation, the period of study leave shall be deemed to begin to run up to the expiry of the vacation. A teacher who is selected to a higher post during study leave, will be placed in that position and get the higher scale only after joining the post.
- (ix) A teacher granted study leave shall on his return and re-joining the service of the Institute may be eligible to the benefit of the annual increment(s) which he would have earned in the course of time if he had not proceeded on study leave. No teacher shall however, be eligible to receive arrears of increments.

(x) Study leave shall count as service for pension or contributory provident fund, as the case may be, provided the teacher joins the Institute on the expiry of his/her study leave, and serves for the period for which the bond has been executed.

(xi) Study leave granted to a teacher shall be deemed to be cancelled in case it is not availed of within twelve months of its sanction.

Provided that where study leave granted has been so cancelled, the teacher may apply again for such leave.

(xii) A teacher availing himself of study leave shall undertake in the bond to be executed by him that he shall serve the Institute for a continuous period of at least three years to be calculated from the date of his resuming duty after the expiry of the study leave.

(xiii) A teacher –

(a) who fails to rejoin his service in the Institute on the expiry of his study leave; or

(b) who rejoins the service of the Institute but leaves the service without completing the prescribed period of service after rejoining the service, or

(c) who, within the said period, is dismissed or removed from the service of the Institute,

shall be liable to refund to the Institute, the amount of leave salary and allowances and other expenses, incurred on the teacher or paid to him or on his behalf in connection with the course of study approved by the Governing Body.

Provided that if a teacher had served in the Institute for a period of not less than half the period of service prescribed for the purpose, on return from study leave, he shall refund to the Institute half of the amount calculated as above. In case the teacher has been granted study leave without pay and allowances, he shall be liable to pay the Institute an amount equivalent to his four months pay and allowances calculated on the basis of pay and allowances last drawn as well as other expenses incurred by the Institute in connection with the course of study.

EXPLANATION : (a) If a teacher asks for extension of Study Leave and is not granted the extension but does not rejoin duty on the expiry of the leave originally sanctioned, he shall be deemed to have failed to rejoin the service on the expiry of his leave for the purpose of recovery of dues under these rules.

(b) Notwithstanding the above, the Governing Body may order that nothing in these rules shall apply to a teacher who within three years of return to duty from study leave is permitted to retire from service on medical grounds.

Provided that the Governing Body may, in any other exceptional case, waive or reduce, for reasons to be recorded, the amount refundable by a teacher under these rules.

(xiv) (a) After leave has been sanctioned, the teacher shall, before availing himself of leave, execute a bond in favour of the Institute in the prescribed form binding himself to service in the Institute for not less than double the period of study leave sanctioned to him on full, half or no pay, as the case may be, subject to a maximum period of three years.

(b) In addition to executing a bond as aforesaid, the teacher shall furnish security of two permanent teachers and give security of immovable property to the satisfaction of the Institute or a fidelity bond of an insurance company or a guarantee by a scheduled bank for the amount which might become refundable to the Institute in accordance with sub-clause (xiii) above.

The Sureties furnished should be acceptable to the Institute. Where the two sureties provided by the teacher are those who are permanent teachers of the institution to which the teacher belongs, the Institute, may, at its discretion, waive the additional

requirement of getting security of immovable property or a fidelity bond of an insurance company or a guarantee by a scheduled bank. The surety clause shall form part of the study leave bond and the persons giving surety shall be liable to pay to the Institute the amount recoverable from the teacher concerned on his failure to fulfill the obligations contained in the bond.

- (xv) The teacher shall submit to the Registrar six monthly reports of progress in his studies from his supervisor or the head of the Institution. This report shall reach the Registrar within one month of the expiry of every six months of the study leave. If the report does not reach the Registrar within the specified time, the payment of leave salary may be deferred till the receipt of such report.

MERI Research Policy

MERI believes that an academic institution should actively engage in transfer of knowledge gained through research for the benefit of society. Research and innovating teaching methodology is the central mission of the college, research is one of the pioneer aspect of academic activities which help the college to achieve excellence in the field of education. MERI encourages its faculty and students to serve the society through their primary commitment in research that are in tandem with our core values as an institution of higher education. Research can flourish only in a climate of academic freedom which includes freedom of inquiry, freedom to challenge conventional thought and the right to disseminate the results. However, with academic freedom comes the responsibility to ensure that all research is conducted by the principles of honesty, integrity, trust, accountability and meets high scientific and ethical standards; is conducted with honest and thoughtful inquiry, rigorous analysis, and accountability for the use of professional standards; and seeks to increase knowledge in ways that do not harm but which benefit society.

Aims of the Research Policy

1. The college expects all members of the college including faculty and students who are conducting research to observe the highest standards of ethics and integrity in the conduct of their research. In pursuance of such high standards they must:
 - a) Be honest in proposing, conducting and reporting research. They should strive to ensure the accuracy of research data and results and acknowledge the contributions of others
 - b) Comply with ethical and legal obligations as required by statutory and regulatory authorities, including seeking ethical review and approval for research as appropriate.

- c) They should ensure that any research undertaken complies the safety, dignity, wellbeing and rights of those associated with the research
- d) Ensure that they have the necessary skills and training for their field of research
- e) Recognise their accountability to the college and their peers for the conduct of their research
- f) Having due regard to subject disciplinary norms, acknowledge that authorship of a research output should be attributed only to a researcher who has made a significant intellectual, scholarly or practical contribution to that output and is willing to take responsibility for the contribution

- 2. Failure to comply with this Code of Practice and Procedure may give rise to an allegation of Misconduct in Research. Misconduct in Research may be a ground for disciplinary action, and if serious, for dismissal or expulsion.

Scope of the Research Policy

This policy shall apply to all the researchers of the college and for the purpose of this policy 'researchers' are defined to include

- 1. All faculty, temporary and permanent, who are active in teaching, research, and provision of any form of support to the core functions of the college;
- 2. All students registered with the college;
- 3. All mentors, guides, external experts and sponsors associated with any of the research activities of the college
- 4. All academic departments of the college;

This policy shall apply to all the research and related activities of the college and for the purpose of this policy research and related activities will inter alia include

1. Research activities including basic, strategic and applied research undertaken either for fulfilling the requirements of academic degrees or for solving problems
2. Scholarly activities intended to expand knowledge boundaries by analysis, synthesis and interpretation of ideas and information by making use of rigorous methodologies
3. Knowledge compilation and communication initiatives for keeping abreast of academic developments in any knowledge domain such as writing of textbooks, chapters of textbooks, monographs; developing/updating curriculum, etc.
4. Creative activities involving the generation of new ideas, innovations, hypotheses, images, performances or artefacts, including design in any field of knowledge which leads to the development of new knowledge, understanding or expertise;
5. Research projects of students undertaken as part of the curriculum or for enriching it
6. Publication, presentation and communication of the research outcomes and related activities

Objectives of the Research Policy

- To strengthen the institutional capacity for strategic, technical and operational planning, budgeting and control of all research activities of the college
- To create and administer a research fund for supporting and facilitating research initiatives and projects of faculty members and students
- To develop rules, procedures and guidelines for granting research support, instituting awards, and supporting all other related activities
- To develop rules, procedures and guidelines for granting study leave, sabbatical leave, duty leave, reduction in workload, etc. for faculty members undertaking research activities

- To provide a modality for proper coordination of all research activities of the college and aligning these to the vision and missions of the college and national development goals.
- To prepare and regularly update the research agenda of the college outlining the preferred focus areas and priorities of research activities to be supported
- To guide faculty members in the effective integration research projects with the regular curriculum implementation and curriculum enrichment activities
- To identify and inform researchers about the appropriate research opportunities announced by different academic, research, industry or government organisations
- To promote interdisciplinary research and establish modalities for preparing and undertaking joint research projects covering more than one knowledge domain as well as policies for involving external agencies/experts in such projects
- To define an enabling framework for researchers to obtain sponsorships for research projects and which makes the participating researchers responsible for the successful implementation of the project
- To identify and establish linkages including MOU s for long term relationships with national and international research organisations for widening the scope of research opportunities and funding options available to the teachers and students of the college.
- To identify and establish linkages including MOU s for long term relationships with industry bodies and individual companies for creating opportunities for teachers and students of the college to involve themselves in real life research projects and obtaining sponsorships
- To identify and develop collaboration with national and international renowned researchers

- To encourage and facilitate the publication of the research work/projects in reputed academic journals
- To encourage and facilitate the presentation/communication of the research work/projects as well as their findings and recommendations through academic events such as workshops/seminars/guest lectures or the media
- To compile data on all the research work/projects undertaken by the teachers and students in to a database for easy monitoring and analysis of the progress being made by them from year to year
- To provide a mechanism for ensure that academic staff attain the desired mix of teaching, research and consultancy outputs so as to achieve the level stated in the College mission;
- To draw up and adopt a research code, which informs all researchers about the ethical and legal norms and principles to be followed in the conduct of research
- To prepare and implement a research quality assurance mechanism for ensuring that all research activities of the college conform to standard quality specifications
- To develop, prescribe and administer rules and procedures to ensure the compliance of all researchers to the research quality assurance framework, the research code and all the applicable rules and regulations.

Research Policy Implementation Mechanism

The Research Cell of the college shall be responsible for implementing this research policy of the college by working closely with the college management. The specific roles and functions of the research cell will be as follows

1. Provide research facilities in terms of laboratory equipment, research journals and research incentives etc. required by the faculty.

2. Encourage and promote a research culture (eg. opportunities for attending conferences, research workshops etc.).
3. The cell will conduct meetings with the faculty members involved in research for weekly/ fortnightly for progress in research
4. Encourage the faculty to undertake research by collaborating with other research organizations/ industry.
5. Create suitable procedures for giving due recognition for guiding research.
6. Facilitate the establishment of specific research units/ centres by funding agencies / college.
7. Organise workshops/ training programmes/ sensitisation programmes are conducted by the institution to promote a research culture on campus.
8. Invite industry to use the research facilities of the college and sponsor research projects.
9. Approach National and international organisations such as UGC, ICSSR, AICTE,DST to fund major and minor research projects undertaken by the faculty / students
10. Make efforts to improve the availability of research infrastructure requirements to facilitate research.
11. Develop and implement an official Code of Ethics to check malpractices and plagiarism in research.
12. Facilitate Interdepartmental / interdisciplinary research projects.
13. Institute research awards.
14. Create incentives for the faculty who receive state, national and international recognition for research contributions as well as research awards and recognition from reputed professional bodies and agencies.
15. Encourage and promote the publication of research articles by the faculty in reputed/ refereed journals.

16. Create and maintain a database of research work and research projects undertaken by the faculty and students as well as collect data by metrics such as Citation Index, Impact Factor, h-index, etc.
17. Publicise the research expertise and consultancy capabilities available in the college.
18. Facilitate the provision consultancy services to industries / Government / Non-Government organizations / community/ public.
19. Prepare Rules & Guidelines for Grant of Research related leave and other remissions
20. Prepare Guidelines for design and evaluation of curriculum oriented research projects

Copyright Policy

The college has a general policy that the copyright remains with creator of the work unless it is a case of institutional work i.e. it is created over years and number of faculty or students are part of the research work and college equipments and assets are used for the work, funded by the college or it is created at the direction of the college for a specific purpose, the college will retain its ownership.

Guidelines for Grant of Research related leave

Research leaves are an investment by the College in the faculty. Research leaves are granted for the purpose of facilitating scholarly research, study, or other creative activity.

For the purposes of this policy and procedure 'research leave', 'study leave' and 'sabbatical' are equivalent terms. Research leave is defined as leave to enable academic staff to pursue research free from teaching and administrative duties.

In considering applications for research leave the following principles will apply:

- Applications for research leave should outline a clear and achievable research plan with a timeline and clear specific outcomes in terms of internationally-excellent publications and/or externally funded research projects.
- Previous research leave outcomes will be taken into account.
- The extent to which applicants have contributed positively to the teaching and administrative demands of the department will be taken into account.
- Research leave should not be approved where the individual has failed to carry out reasonable teaching duties when requested, or to comply with annual monitoring of research.
- Research leave should not be approved if the applicant intends use the leave to teach at another institution.
- Research leave will be granted after due consideration of workloads including teaching responsibilities with the aim of minimising disruption to teaching programmes. Balancing research leave, teaching and other activities will be achieved through discussion and agreement with the relevant Head of Department.
- A maximum of 2 FDP/workshop for enhancement of research aptitude may be granted per faculty per year.
- Within 30 days after return from a leave, faculty members must submit a report to their dean/ Head of Department

Guidelines for design and evaluation of curriculum oriented research projects

Research projects undertaken by students during the various programs should be in line with the latest requirement of the industry.

A project should conform to the following standards:

Utility: It must be useful and serve the practical and strategic information needs of the intended users for decision-making purposes, these may range from assessing programme performance to allocating resources, etc.

Feasibility: Be realistic and practical. Given the scarcity of resources, the project should make the best use of existing data collection systems. However, if new data collection systems are involved, resources (cost and technical capacity) must carefully be considered.

Ethically sound: Abide by ethical principles with regard to those involved in and affected by the project outcomes.

Accuracy: Provide technically accurate and useful information for decision-making and programme improvement.

The college will reimburse the 50% amount to the faculties for registering in international conference/International seminars and as per actual of National Conference/ National seminars/ FDP.

As approved by chair around Rs 15 Lacs allocated to three departments (Management, IT and Journalism) to conduct research projects in their domains. The amount equally distributed (Rs 5 lacs per department) among all the departments; each department will be accountable to recommend faculty members for conducting the research projects. The research proposals screened by the research committee and thereafter, will be funded by the institution.

Respected Madam,

Greetings from Reskilling HR Foundation!

It gives me immense pleasure to invite you to be the **Keynote Speaker** at the **Viksit Bharat Conclave 2025**, organized by **Reskilling HR Foundation**, New Delhi. The event is scheduled to be held on **27 March 2025** at the **India International Centre, New Delhi**.

The **Viksit Bharat Conclave 2025** is centred on the theme: "**Empowering India: Transformative Leadership for Viksit Bharat**". The sub-themes of the conclave include:

- **Economic Growth:** Driving India's Future Prosperity.
- **Technological Advancement:** Innovation as a Pillar of Transformation.
- **Political and Administrative Reforms:** Strengthening Governance for Viksit Bharat.
- **Education and Skill Development:** Empowering the Workforce for Future Challenges.
- **Women in Leadership:** Empowering India's Future.

This theme reflects our collective commitment to accelerating India's journey toward becoming a **developed nation by 2047**. The conclave will serve as a distinguished platform for **thought leaders, policymakers, industry experts, and change-makers** to deliberate on transformative leadership, innovation, and sustainable growth strategies essential for realizing the **Viksit Bharat@2047** vision.

Reskilling HR Foundation is dedicated to **fostering leadership excellence, reskilling initiatives, and policy advocacy** to drive India's socio-economic progress. Through **knowledge-sharing, capacity building, and impactful discussions**, we aim to empower individuals and institutions in shaping India's development narrative.

We would be honoured by your presence at this esteemed gathering, and your insights would greatly enrich the discussions. We look forward to your affirmative response and the privilege of welcoming you to this significant event.

Thank you for your time and consideration.

Dear Shri Jha,

Greetings from Delhi Technological University (DTU). I wish to inform you that the Mechanical Engineering Department, DTU, in association with other stakeholders, is organizing a three-day workshop on "**Industry 5.0: Green Energy & Human-Centric Innovation Shaping a Sustainable Future**" from April 2-4, 2025, at DTU.

The transition towards Industry 5.0 is revolutionizing innovation, placing greater emphasis on human-centric technologies and intelligent systems. This workshop will focus on cutting-edge advancements, particularly in the domains of machine learning, deep learning, and cryptography, which play a pivotal role in shaping a secure and sustainable future. The integration of these technologies in Industry 5.0 is critical to driving innovation and addressing challenges in automation, privacy, and intelligent systems.

Considering your expertise in groundbreaking research on Sustainable Operation, I take this opportunity to respectfully request your participation as a resource person during the workshop. Your insights and a case study presentation on a topic of your choice related to these areas would immensely benefit the participants and further the workshop's objectives. Additionally, I kindly request your guidance in preparing a roadmap and conducting interactive activity sessions during the workshop. Travel Allowance and Daily Allowance (TA/DA) shall be paid as per the rules. The organizing committee looks forward to your support for the workshop all three days.

On behalf of the organizing committee, I look forward to your kind consideration and acceptance of our invitation.

With warm regards,

Sincerely
