NOTICE

Rainwater Harvesting Awareness Program

All faculty members and students of MERI,

The CSR Club/NSS Unit of MERI is pleased to announce a Rainwater Harvesting Awareness Program scheduled for 24th July 2023. This initiative aims to educate students and faculty about sustainable water conservation practices and the role of rainwater harvesting in mitigating water scarcity.

The program will feature a seminar by environmental experts, who will discuss the importance of rainwater collection, storage, and utilization for various purposes. Additionally, live demonstrations of different rainwater harvesting techniques will be conducted to provide hands-on learning.

An interactive session will follow, encouraging students to share their perspectives and queries on water conservation. This event is an excellent opportunity to gain insights into practical solutions for sustainable water management.

We encourage all students and faculty members to actively participate in this informative session.

Date: 24th July 2023

Time: 10:00 AM onwards

Venue: College Campus

Club Coordinators:

Prof. (Dr.) Deepshikha Kalra, DEAN, MERI
